¹ This questionnaire is used to analyze the impacts on the privacy and security of the personally identifiable information (PII) that is being maintained in these records and files.

The *Privacy Act of 1974*, as amended, 5 C.F.R. 552a, requires Federal agencies to take special measures to protect personal information about individuals when the agencies collect, maintain, and use such personal information.

Having established through the **Privacy Threshold Analysis (PTA)** that this information system contains information about individuals, *e.g.*, personally identifiable information (PII), it is important that when the FCC makes changes to such an information system, the FCC then analyzes:

- (a) What changes are being made to the information that the system presently collects and maintains; and/or
- (b) What new information will be collected and maintained to determine the continuing impact(s) on the privacy of the individuals.

The Privacy Impact Assessment template's purpose is to help the bureau/office to evaluate the changes in the information in the system and to make the appropriate determination(s) about how to treat this information, as required by the Privacy Act's regulations.

Section 1.0 Information System's Contents:

1.1 Status of the Information System:

- New information system—Implementation date:
- Revised or upgraded information system—Revision or upgrade date: May 2009

- Placed in new auxiliary/ancillary information system—Date:
- Other use(s)—Implementation Date:

Please explain your response:

The Performance Evaluation and Records Management (PERM) division of the Office of Managing Director (OMD) is making various minor revisions to the Federal Advisory Committee Membership File (FACA) information system, including the system of records notice (SORN) FCC/OMD-3, "Federal Advisory Committee Membership File (FACA)," that covers the personally identifiable information (PII) used by this information system. PERM has upgraded parts of this information system and added a routine use, "breach notification," as required by OMB Memorandum M-07-16 (May 22, 2007).

1.2 Has a Privacy Threshold Analysis (PTA) been done?

- Yes
Date:
- No

If a Privacy Threshold Analysis has not been done, please explain why not:

This system of records notice (SORN) pre-dates the OMB requirements contained in OMB Memorandum M-03-22 (September 22, 2003) that created the Privacy Impact Assessment.

If the Privacy Threshold Analysis (PTA) has been completed, please skip to Question 1.15

1.3 Has this information system, which contains information about individuals, *e.g.*, personally identifiable information (PII), existed under another name, *e.g.*, has the name been changed or modified?

- Yes
 No

If yes, please explain your response:

The Federal Advisory Committee Membership File (FACA) information system has never existed under another name nor has the name been changed since this SORN was published in the *Federal Register* on April 5, 2006.

1.4 Has this information system undergone a “substantive change” in the system’s format or operating system?

- Yes
 No

If yes, please explain your response:

The staff in the Performance Evaluation and Records Management (PERM) division of OMD has made only minor updates to the Federal Advisory Committee Membership File (FACA) information system.

If there have been no such changes, please skip to Question 1.6.

1.5 Has the medium in which the information system stores the records or data in the system changed from paper files to electronic medium (computer database); or from one electronic information system to another, *i.e.*, from one database, operating system, or software program, *etc.*?

- No

Please explain your response:

- 1.15 Under the *Privacy Act of 1974*, as amended, 5 C.F.R. 552a, Federal agencies are required to have a System of Records Notice (SORN) for an information system like this one, which contains information about individuals, *e.g.*, “personally identifiable information” (PII).

A System of Records Notice (SORN) is a description of how the information system will collect, maintain, store, and use the personally identifiable information (PII).

Is there a SORN that already covers this PII in this information system?

- Yes
 No

If yes, what is this System of Records Notice (SORN): This system of records notice, FCC/OMD-3, "Federal Advisory Committee Membership Files (FACA)," was published in the *Federal Register* on April 5, 2006.

Please provide the citation that was published in the *Federal Register* for the SORN: 71 FR 17234, 17249.

If a SORN already covers this PII, please skip to **Section 2.0 System of Records Notice (SORN) Update** to address any changes to this SORN.

If a system of records notice (SORN) does not presently cover the information about individuals in this system, then it is necessary to determine whether a new FCC system of records notice must be created for the information.

- 1.16 If this information system is not covered by a system of records notice (SORN), does the information system exist by itself, or does it now, or did it previously exist as a component or subset of another SORN?

- Yes
 No

If yes, please explain what has occurred:

What is the System of Records Notice (SORN) of which it is currently or previously a component or subset:

Please also provide the citation that was published in the *Federal Register* for the SORN:

- 1.17 What are the purposes or functions that make it necessary to create a new a system of records notice (SORN) for this information system, *e.g.*, why is the information being collected?

- 1.18 Where is this information for the system of records notice (SORN) located?

1.19 Is the use of the information both relevant and necessary to the purposes for which the information system is designed, *e.g.*, is the SORN only collecting and using information for the specific purposes for which the SORN was designed so that there is no “extraneous” information included in the database(s) or paper files?

- Yes
- No

Please explain your response:

If the use of this information is both relevant and necessary to the processes for this information system is designed, please skip to Question 1.21.

1.20 If not, why or for what reasons is the information being collected?

1.21 Is the information covered under a Security Classification as determined by the FCC Security Officer?

- Yes
- No

Please explain your response:

1.22 What is the legal authority that authorizes the development of the information system and the information/data collection?

1.23 In what instances would the information system’s administrator/manager/developer permit disclosure to those groups outside the FCC for whom the information was not initially intended.

Section 4.0 Data Quality, Utility, Objectivity, and Integrity Requirements:

OMB regulations require Federal agencies to insure that the information/data that they collect and use meets the highest possible level of quality and integrity. It is important, therefore, that the information the Commission’s information systems use meets the “benchmark standards” established for the information.
