**Privacy Impact Assessment¹ (PIA) for the
Investigations and Hearings Information System**

May 22, 2009

FCC Bureau/Office: Enforcement Bureau (EB)
Division: Investigations and Hearings

Privacy Analyst: Leslie F. Smith
Telephone Number: (202) 418-0217
E-mail Address: Leslie.Smith@fcc.gov

¹ This questionnaire is used to analyze the impacts on the privacy and security of the personally identifiable information (PII) that is being maintained in these records and files.

The *Privacy Act of 1974*, as amended, 5 U.S.C. 552a, requires Federal agencies to take special measures to protect personal information about individuals when the agencies collect, maintain, and use such personal information.

Having established through the **Privacy Threshold Assessment** that this information system contains information about individuals, *e.g.*, personally identifiable information (PII), it is important that when the FCC makes changes to such an information system, the FCC then analyzes:

- (a) What changes are being made to the information that the system presently collects and maintains; and/or
- (b) What new information will be collected and maintained to determine the continuing impact(s) on the privacy of the individuals.

The Privacy Impact Assessment template's purpose is to help the bureau/office to evaluate the changes in the information in the system and to make the appropriate determination(s) about how to treat this information, as required by the Privacy Act's regulations.

Section 1.0 Information System's Contents:

1.1 Status of the Information System:

- New information system—Implementation date:
- Revised or upgraded information system—Revision or upgrade date: April 2009

If this system is being revised—what will be done with the newly derived information:

- Placed in existing information system—Implementation Date: April 2009
- Placed in new auxiliary/ancillary information system—Date:
- Other use(s)—Implementation Date:

Please explain your response:

The Enforcement Bureau (EB) has made various minor revisions to the Investigations and Hearings information system, which includes the personally identifiable information that is covered by the system of records notice (SORN) FCC/EB-3, "Investigations and Hearings" SORN. EB has upgraded parts of this information system and added a routine use, "breach notification," as required by OMB Memorandum M-07-16 (May 22, 2007).

1.2 Has a Privacy Threshold Assessment been done?

- Yes
Date:
- No

If a Privacy Threshold Assessment has not been done, please explain why not:

The FCC created the Investigations and Hearings information system to track the status of enforcement cases at the Commission. In 2006, the FCC determined that the Investigations and Hearings information system contained personally identifiable information (PII) and created a system of records, FCC/EB-3, "Investigations and Hearings" SORN to cover the PII contained in this information system. The FCC subsequently published this SORN in the *Federal Register* on April 5, 2006; see 71 FR 17255, 17254).

If the Privacy Threshold Assessment (PTA) has been completed, please skip to Question 1.15

1.3 Has this information system, which contains information about individuals, *e.g.*, personally identifiable information (PII), existed under another name, *e.g.*, has the name been changed or modified?

- Yes
 No

If yes, please explain your response:

The FCC created the Investigations and Hearings information system when the Enforcement Bureau was created to centralize the FCC's investigations and hearings policies, activities, and programs in one bureau at the Commission. This information system has never existed under another name, nor has the name been changed since the SORN was published in the *Federal Register* on April 5, 2006.

1.4 Has this information system undergone a "substantive change" in the system's format or operating system?

- Yes
 No

If yes, please explain your response:

The operating system for the electronic records and data contained in the Investigations and Hearings information system has been migrated to a SQL server. This information system also includes paper documents, records, and files..

If there have been no such changes, please skip to Question 1.6.

1.5 Has the medium in which the information system stores the records or data in the system changed from paper files to electronic medium (computer database); or from one electronic information system to another, *i.e.*, from one database, operating system, or software program, *etc.*?

- Yes
 No

If yes, please explain your response:

1.6 Has this information system operated as part of another information system or was it linked to another information system:

- Yes
 No

If yes, please explain your response:

The Investigations and Hearings information system, including the personally identifiable information covered by FCC/EB-3, "Investigations and Hearings" SORN, is a "stand alone" information system. It has no links to other FCC or non-FCC information systems.

If the information system is not part of, nor linked to another information system, please skip to Question 1.8

1.14 Will the new information include personal information about individuals, *e.g.*, personally identifiable information (PII), be included in the individual's records, or be used to make a determination about an individual?

- Yes
- No

Please explain your response:

1.15 Under the *Privacy Act of 1974*, as amended, 5 U.S.C. 552a, Federal agencies are required to have a System of Records Notice (SORN) for an information system like this one, which contains information about individuals, *e.g.*, "personally identifiable information" (PII).

A System of Records Notice (SORN) is a description of how the information system will collect, maintain, store, and use the personally identifiable information (PII).

Is there a SORN that already covers this PII in this information system?

- Yes
- No

If yes, what is this System of Records Notice (SORN): This system of records notice, FCC/EB-3, "Investigations and Hearings," was published in the *Federal Register* on April 5, 2006.

Please provide the citation that was published in the *Federal Register* for the SORN: 71 FR 17234, 17238.

If a SORN already covers this PII, please skip to **Section 2.0 System of Records Notice (SORN) Update** to address any changes to this SORN.

If a system of records notice (SORN) does not presently cover the information about individuals in this system, then it is necessary to determine whether a new FCC system of records notice must be created for the information.

1.16 If this information system is not covered by a system of records notice (SORN), does the information system exist by itself, or does it now, or did it previously exist as a component or subset of another SORN?

- Yes
- No

If yes, please explain what has occurred:

What is the System of Records Notice (SORN) of which it is currently or previously a component or subset:

Please also provide the citation that was published in the *Federal Register* for the SORN:

- 1.17 What are the purposes or functions that make it necessary to create a new a system of records notice (SORN) for this information system, *e.g.*, why is the information being collected?
- 1.18 Where is this information for the system of records notice (SORN) located?
- 1.19 Is the use of the information both relevant and necessary to the purposes for which the information system is designed, *e.g.*, is the SORN only collecting and using information for the specific purposes for which the SORN was designed so that there is no “extraneous” information included in the database(s) or paper files?
- Yes
 No

Please explain your response:

If the use of this information is both relevant and necessary to the processes for this information system is designed, please skip to Question 1.21.

- 1.20 If not, why or for what reasons is the information being collected?
- 1.21 Is the information covered under a Security Classification as determined by the FCC Security Officer?
- Yes
 No

Please explain your response:

Such disclosures, which are referred to as “Routine Uses,”² are those instances that permit the FCC to disclose information from a SORN to specific “third parties.” These disclosures may be for the following reasons:
(check all that are applicable)

² Information about individuals in a system of records may routinely be disclosed for the following conditions, *e.g.*, “routine uses”; however, in each of these routine uses that are checked, the FCC will determine whether disclosure of the information, *i.e.*, records, files, documents, and data, *etc.*, is compatible with the purpose(s) for which the information has been collected.

Section 4.0 Data Quality, Utility, Objectivity, and Integrity Requirements:

OMB regulations require Federal agencies to insure that the information/data that they collect and use meets the highest possible level of quality and integrity. It is important, therefore, that the information the Commission’s information systems use meets the “benchmark standards” established for the information.

Those who are subject to the EB enforcement action may be subject to administrative fines and other penalties.

5.18 Do individuals have the right to decline to provide personally identifiable information (PII)?

- Yes
 No

Please explain your response:

Individuals who file complaints via the FCC's Investigations and Hearings information system, including the personally identifiable information (PII) that is covered by FCC/EB-3, "Investigations and Hearings" SORN, are required to provide only minimal personally identifiable information (PII), *i.e.*, name, address, telephone number, *etc.* The required PII is necessary for the Enforcement Bureau staff to process the complainant's filing in the enforcement case proceeding(s). However, depending on the circumstances, EB may ask the complainant's permission to use their name and other PII in the resolution of the complaint.

5.19 Do individuals have the right to consent to particular uses of their personal information?

- Yes
 No

Please explain your response:

Individuals who submit complainant filings against FCC licensees and regulatees via the FCC's Investigations and Hearings information system, which includes the PII that is covered by FCC/EB-3, "Investigations and Hearings" SORN, are not required to provide PII. However, they are encouraged to provide minimal personally identifiable information, *i.e.*, name, address, telephone number, *etc.*, which is the minimal information that the FCC needs to identify the filer and to process the complainant filing in the enforcement case proceedings. However, depending on the circumstances, EB may ask the complainant's permission to use their name and other PII in the resolution of the complaint.

If individuals do not have the right to consent to the use of their information, please skip to Question 5.22.

5.20 If individuals have the right to consent to the use of their personal information, how does the individual exercise this right?

5.21 What processes are used to notify and to obtain consent from the individuals whose personal information is being collected?

5.22 Is the information, *i.e.*, records, data, documents, *etc.*, that the information system collects, uses, maintains, *etc.*, being used to produce reports on the individuals whose PII is part of this information covered by the system of records notice (SORN)?

- No

Please explain your response:

The Investigations and Hearings information system does not produce any reports on any PII pertaining to the filers. The information that is submitted, including any PII on the individual submitters (which is provided voluntarily), is used to track the status of enforcement cases in the EB-IHS's electronic database. The information contained in the paper documents and files is stored and maintained for reference in enforcement actions.

[I revised this question earlier and updated the other PIAs, but I forgot to revise it for this PIA.]

The FCC requires that individuals provide this minimal personally identifiable information (PII) so that their complaints may be identified in the enforcement case proceedings.

- 5.36 Will the information system that is covered by this system of records notice (SORN) include a capability to identify, locate, and/or monitor individuals?

- Yes
- No

Please explain your response:
