¹ This questionnaire is used to analyze the impacts on the privacy and security of the personally identifiable information (PII) that is being maintained in these records and files.

The *Privacy Act of 1974*, as amended, 5 U.S.C. 552a, requires Federal agencies to take special measures to protect personal information about individuals when the agencies collect, maintain, and use such personal information.

Having established through the **Privacy Threshold Analysis** that this information system contains information about individuals, *e.g.*, personally identifiable information (PII), it is important that when the FCC makes changes to such an information system, the FCC then analyzes:

- (a) What changes are being made to the information that the system presently collects and maintains; and/or
- (b) What new information will be collected and maintained to determine the continuing impact(s) on the privacy of the individuals.

The Privacy Impact Assessment template's purpose is to help the bureau/office to evaluate the changes in the information in the system and to make the appropriate determination(s) about how to treat this information, as required by the Privacy Act's regulations.

Section 1.0 Information System's Contents:

Is there a SORN that already covers this PII in this information system?

- Yes
 No

If yes, what is this System of Records Notice (SORN): This system of records notice, FCC/OCBO-1, "Small Business Contacts List," was published in the *Federal Register* on April 5, 2006.

- 1.19 Is the use of the information both relevant and necessary to the purposes for which the information system is designed, *e.g.*, is the SORN only collecting and using information for the specific purposes for which the SORN was designed so that there is no “extraneous” information included in the List (s) or paper files?
- Yes
 No

Please explain your response:

If the use of this information is both relevant and necessary to the processes for this information system is designed, please skip to Question 1.21.

Please explain your response:

OCBO does not have any contractors.

3.9 Does the information system covered by this system of records notice (SORN) transmit/share personal information, *e.g.*, personally identifiable information (PII), between the FCC information technology (ITC) network(s) and a public or other non-FCC IT network(s), which are not covered by this Privacy Impact Assessment?

- Yes
- No

Please explain your response:

The OCBO staff may communicate via e-mail with state and federal government officials, business, professional, trade, and education groups and organizations to obtain membership and

contact information to expand or modify records and data in the Small Business Contacts List information system and to provide information on scholarships, training, and educational programs. However, there is no direct electronic transfer of PII between this information system's databases and other information systems outside the FCC.

If there is no information sharing or transmission, please skip to **Section 4.0 Data Quality, Utility, Objectivity, and Integrity Requirements:**

3.10 If the information system covered by this system of records noticed (SORN) transmits/shares personal information between the FCC network and a public or other non-FCC network, which is not covered by this Privacy Impact Assessment, what information is shared/transmitted/disclosed and for what purposes?

3.11 If there is such transmission/sharing of personal information, how is the information secured for transmission—what security measures are used to prevent unauthorized access during transmission, *i.e.*, encryption, *etc.*?

3.12 If there is sharing or transmission to other information systems, with what other non-FCC organizations, groups, and individuals will the information be shared?
(Check all that apply and provide a brief explanation)

- Other Federal agencies:
- State, local, or other government agencies:
- Businesses:
- Institutions:
- Individuals:
- Other groups:

If there is no “matching agreement,” *e.g.*, *Memorandum of Understand (MOU)*, *etc.*, please skip to **Section 4.0 Data Quality, Utility, Objectivity, and Integrity Requirements:**

3.13 What kind of “matching agreement,” *e.g.*, *Memorandum of Understanding (MOU)*, *etc.*, as defined by 5 U.S.C. 552a(u) of the Privacy Act, as amended, is there to cover the information sharing and/or transferal with the external organizations?

3.14 Is this a new or a renewed matching agreement?

- New matching agreement
- Renewed matching agreement

Please explain your response:

3.15 Has the matching agreement been reviewed and approved (or renewed) by the FCC’s Data Integrity Board, which has administrative oversight for all FCC matching agreements?

Yes

If yes, on what date was the agreement approved:

No

Please explain your response:

3.17 How is the information that is covered by this system of records notice (SORN) transmitted or disclosed with the external organization(s) under the *MOU* or other “matching agreement?”

3.18 How is the shared information secured by the recipient under the *MOU*, or other “matching agreement?”

Section 4.0 Data Quality, Utility, Objectivity, and Integrity Requirements:

OMB regulations require Federal agencies to insure that the information/data that they collect and use meets the highest possible level of quality and integrity. It is important, therefore, that the information the Commission’s information systems use meets the “benchmark standards” established for the information.

4.1 How will the information that is collected from FCC sources, including FCC employees and contractors, be checked for accuracy and adherence to the Data Quality guidelines?

(Please check all that apply)

Information is processed and maintained only for the purposes for which it is collected.

Information is reliable for its intended use(s).

Information is accurate.

Information is complete.

Information is current.

Not applicable:

Please explain any exceptions or clarifications:

All the information in the Small Business Contacts List information system comes from non-FCC sources.

If the Data Quality Guidelines do not apply to the information in this information system, please skip to **Section 5.0 Safety and Security Requirements:**

4.2 Is any information collected from non-FCC sources; if so, how will the information sources be checked for accuracy and adherence to the Data Quality guidelines?

(Please check all that apply and provide an explanation)

Yes, information is collected from non-FCC sources: Small, minority, and women-owned communications businesses and related groups.

Information is processed and maintained only for the purposes for which it is collected:

Information is reliable for its intended use(s):

- Information is accurate:
- Information is complete:
- Information is current:
- No information comes from non-FCC sources:

Please explain any exceptions or clarifications:

The information contained in the Small Business Contacts List information system, including the personally identifiable information (PII) covered by FCC/OCBO-1, “Small Business Contacts List” SORN, is collected from the personal information that individuals in small, minority, woman-owned communications businesses and related groups, *i.e.*, educational, training, and professional organizations, *etc.*, provide to the Office of Communications Business Opportunities (OCBO) on a voluntary basis. The OCBO staff assumes that these individuals provide the correct information since it is to their benefit that their personal information is accurate and up-to-date, so that they may be notified of OCBO programs and activities of interest to them.

If the information that is covered by this system of records notice (SORN) is not being aggregated or consolidated, please skip to Question 4.5.

- 4.3 If the information that is covered by this system of records notice (SORN) is being aggregated or consolidated, what controls are in place to insure that the information is relevant, accurate, and complete?

The OCBO staff may conduct various analyses of the information that it receives from individuals in small, minority, woman-owned communications businesses and related groups, *i.e.*, educational, training, and professional organizations, *etc.*, as part of its efforts to improve its outreach programs and activities. Such data analysis may include regional membership and professional distributions, educational attainment, outreach evaluation, and other metrics and whose objectives are used solely for aggregated statistical purposes so that any individual identifiers can not be determined.

- 4.4. What policies and procedures do the information system’s administrators and managers use to insure that the information adheres to the Data Quality guidelines both when the information is obtained from its sources and when the information is aggregated or consolidated for the use by the bureaus and offices?

As noted above, OCBO relies on each individual to provide accurate personal information since it is to the benefit of each individual that his/her personal information is accurate and up-to-date, and so that they may be notified of OCBO programs and activities of interest to them.

- 4.5 How often are the policies and procedures checked routinely—what type of annual verification schedule has been established to insure that the information that is covered by this system of records notice adheres to the Data Quality guidelines?

The OCBO staff does annual mailings to its membership. Any returned mailings are followed up to obtain the correct contact information and to insure that the membership list is accurate and current.

Section 5.0 Safety and Security Requirements:

5.1 How are the records/information/data in the information system covered by this system of records notice (SORN) stored and maintained?

- IT List management system (DBMS)
- Storage media including diskettes, CDs, CD-ROMs, *etc.*
- Electronic tape
- Paper files
- Other:

5.2 Is the information collected, stored, analyzed, or maintained by this information system available in another form or from another source (other than a “matching agreement” or *MOU*, as noted above)?

- Yes
- No

Please explain your response:

All information that the Small Business Contacts List information system collects, uses, and maintains is obtained from the personally identifiable information (PII) and other data that these individuals provide to the Office of Communications Business Opportunities (OCBO) on a voluntary basis as part of the OCBO outreach programs and activities.

5.3 Is the information system covered by this system of records notice (SORN) part of another FCC information system that collects personally identifiable information (PII)?

- Yes
- No

Please explain your response:

The Small Business Contacts List information system, which includes the PII covered by FCC/OCBO-1, “Small Business Contacts List ” SORN, is a "stand alone" information system with no links to either FCC or non-FCC information systems.

If this information system is not part of another FCC information system, please skip to Question 5.7.

5.4 If the information system (under review here) has personally identifiable information (PII) and is part of another FCC information system, is there a transfer of records/data/information between these two FCC information system(s)?

- Yes
- No

Please explain your response:

5.5 If the information system’s personally identifiable information (PII) is part of another FCC information system, does the information system have processes and/or applications that are part of those from the other FCC information systems?

- Yes
- No

Please explain your response:

- 5.6 If either or both such situations, as noted in Questions 5.4 and 5.5 exist, what security controls are there to protect the PII information and to prevent unauthorized access?

Not applicable.

Please explain your response:

- 5.7 Would the unavailability of this information system prevent the timely performance of FCC operations?

Yes

No

Please explain your response:

The Small Business Contacts List information system performs a necessary function for the Commission. This information system collects and stores the data that the FCC's Office of Communications Business Opportunities (OCBO) staff uses to compile its List, which OCBO uses in its outreach to small, minority, and women-owned communications businesses and related groups. Without this information system, OCBO would be hampered in its efforts to alert these individuals to OCBO's programs and activities targeted specifically to their communications' businesses and related groups, *i.e.*, FCC's auctions, low-power TV program, *etc.*

- 5.8 Will the information system include an externally facing information system or portal such as an Internet accessible web application at www.fcc.gov or other URL that allows customers/users to access development, production, or internal FCC networks, and which may pose potential risks to the information's security?

Yes

No

Please explain your response:

The information that OCBO obtains is provided by the individuals and groups, *e.g.*, small, minority, and women-owned communications businesses via business cards, telephone conversations, return mailings, and OCBO public events and activities, *etc.*

Furthermore, the Small Business Contacts List's databases are not accessible from outside the FCC.

If the information is collected by some method or mechanism other than the externally facing information system portal at www.fcc.gov or other URL, please skip to Question 5.11.

- 5.9 If the information is collected via www.fcc.gov or other URL from the individuals, how does the information system notify users about the Privacy Notice:

Link to the FCC's privacy policies for all users:

Privacy notice displayed on the webpage:

Privacy notice printed at the end of the form or document:

Website uses another method to alert users to the Privacy Act Notice, as follows:

If there is no link or notice, why not:

- 5.10 If a privacy notice is displayed, which of the following are included?
- Proximity and timing—the privacy notice is provided at the time and point of data collection.
 - Purpose—describes the principal purpose(s) for which the information will be used.
 - Authority—specifies the legal authority that allows the information to be collected.
 - Conditions—specifies whether providing the information is voluntary, and the effects, if any, of not providing it.
 - Disclosures—specify the routine use(s) that may be made of the information.
 - Not applicable, as information will not be collected in this way.

Please explain your response:

- 5.11 Will the information system include another customer-facing web site not on www.fcc.gov or other URL?

- Yes
- No

Please explain your response:

If the information is collected by some method or mechanism other than via the FCC Internet website at www.fcc.gov or the FCC Intranet for FCC employees and contractors working at the FCC, please skip to Question 5.14.

- 5.12 If the information system has a customer-facing web site via the FCC Intranet for FCC employees and contractors working at the FCC, does this web site(s) have a Privacy Act Notice and how is it displayed?

- Yes
 - Notice is displayed prominently on this FCC Intranet website:
 - Link is provided to a general FCC Privacy Notice for all users:
 - Privacy Notice is printed at the end of the form or document:
 - Website uses another method to alert users to the Privacy Act Notice:
- No:

If there is no Privacy Act Notice, please explain why not:

- 5.13 If a privacy notice is displayed, which of the following information is included?

- Proximity and timing—the privacy notice is provided at the time and point of data collection.
- Purpose—describes the principal purpose(s) for which the information will be used.
- Authority—specifies the legal authority that allows the information to be collected.
- Conditions—specifies if providing the information is voluntary, and the effects, if any, of not providing it.
- Disclosures—specify the routine use(s) that may be made of the information.
- Not applicable, as information will not be collected in this way.

Please explain your response:

If information is collected by some method or mechanism other than by fax, e-mail, FCC form(s), or regular mail, please skip to Question 5.16.

5.14 If information is collected from the individual by fax, e-mail, FCC form(s), regular mail, or some other means not listed above, how is the privacy notice provided?

- Privacy notice is on the document, *e.g.*, FCC form, *etc.*
- Privacy notice displayed on the webpage where the document is located:
- Statement on the document notifies the recipient that they may read the FCC Privacy Notice at www.fcc.gov.
- Website or FCC document uses other method(s) to alert users to the Privacy Act Notice:
- Privacy notice is provided via a recorded message or given verbally by the FCC staff handling telephone calls: OCBO has a pre-recorded message specifying what information is being solicited that pertains to each individual.
- No link or notice, please explain why not:
- Not applicable, as personally identifiable information (PII) will not be collected.

5.15 If a privacy notice is displayed, which of the following information is included?

- Proximity and timing—the privacy notice is provided at the time and point of data collection.
- Purpose—describes the principal purpose(s) for which the information will be used.

Please explain your response:

If there is no access to the information system from outside the FCC via www.FCC.gov or other URL, please skip to Question 5.17.

5.16 If consumers may access the information and/or the information system on-line via www.FCC.gov, does it identify ages or is it directed to people under 13 years old?

- Yes
- No

Please explain your response:

5.17 Will the FCC use the newly obtained information or revised information in this information covered by the existing system of records notice (SORN) to make a determination about the individual?

- Yes
- No

Please explain your response:

The FCC's Small Business Contacts List information system, including the PII that is covered by FCC/OCBO-1, "Small Business Contacts List" SORN, is used solely to collect and store this PII,

e.g., "contact data," that individuals provide to OCBO on a voluntary basis as part of OCBO's outreach efforts to small, minority, and women-owned communications businesses, and to encourage students to consider careers in telecommunications and related fields.

5.18 Do individuals have the right to decline to provide personally identifiable information (PII)?

- Yes
 No

Please explain your response:

Individuals connected to small, minority, and women-owned communications businesses and related groups who provide their personally identifiable information ("contact data") to OCBO do so on a voluntary basis, *e.g.*, they may choose whether or not to participate.

5.19 Do individuals have the right to consent to particular uses of their personal information?

- Yes
 No

Please explain your response:

Individuals who participate voluntarily by providing their personal contact information for the OCBO Small Business Contacts List chose how much information they wish to provide. However, these individuals realize that providing minimal contact information may limit OCBO's ability to notify them about OCBO programs and services that may be of interest.

If individuals do not have the right to consent to the use of their information, please skip to Question 5.23.

5.20 If individuals have the right to consent to the use of their personal information, how does the individual exercise this right?

Individuals have the right to determine whether to provide their contact information for the Small Business Contacts List information system, since participation is voluntary.

5.21 What processes are used to notify and to obtain consent from the individuals whose personal information is being collected?

The Office of Communications Business Opportunities (OCBO) asks that individuals who wish to receive announcements about OCBO's events and information on OCBO's outreach programs must provide their personally identifiable information ("contact data") for the Small Business Contacts List information system so that they may be included in these announcements, mailings, and program events and activities. However, participation is entirely voluntary and at the discretion of each individual.

5.22 Is the information, *i.e.*, records, data, documents, *etc.*, that the information system collects, uses, maintains, *etc.*, being used to produce reports on the individuals whose PII is part of this information covered by the system of records notice (SORN)?

- Yes
 No

Please explain your response:

OCBO produces reports that contain information on those individuals who have provided their contact information and other data, *i.e.*, educational attainment, professional and business achievements, *etc.*, since the sole purpose for the Small Business Contacts List information

system is to provide networking, educational, and professional opportunities and resources for these population cohorts.

OCBO can disaggregate the information by categories of participants, *i.e.*, minority, small, and/or women-owned communications businesses, educational attainment, professional training, regional distributions, etc., all of which are being done to enable OCBO to target these subgroups for specific programs and events, *etc* and to provide a more effective outreach programs and activities that are parts of its mission statement..

5.23 What safeguards and security measures, including physical and technical access controls, are in place to secure the information and to minimize unauthorized access, use, or dissemination of the information that is stored and maintained in the information system?

(Check all that apply)

- Account name
- Passwords
 - Accounts are locked after a set period of inactivity
 - Passwords have security features to prevent unauthorized disclosure, *e.g.*, “hacking”
 - Accounts are locked after a set number of incorrect attempts
 - One time password token
 - Other security features:
- Firewall
- Virtual private network (VPN)
- Data encryption:
- Intrusion detection application (IDS)
- Common access cards (CAC)
- Smart cards
- Biometrics
- Public key infrastructure (PKI)
- Locked file cabinets or fireproof safes
- Locked rooms, with restricted access when not in use
- Locked rooms, without restricted access
- Documents physically marked as “sensitive”
- Guards
 - Identification badges
 - Key cards
 - Cipher locks
 - Closed circuit TV (CCTV)
 - Other:

5.24 Please explain what staff security training and other measures are in place to assure that the security and privacy safeguards are maintained adequately?

All FCC employees and contractors who work with the information that is collected, used, stored and maintained in the Small Business Contacts List information system, including the PII that is covered by FCC/OCBO-1, “Small Business Contacts List” SORN, are required to complete privacy training. In addition the staff in the Office of Communications Business Opportunities (OCBO) provides various notices and warnings to the employees and contractors who have access that the PII is not to be shared or disclosed without authorization.

- 5.25 How often are security controls reviewed?
- Six months or less:
 - One year: The OCBO staff reviews the security controls in the Small Business Contacts List information system at least annually.
 - Two years
 - Three years
 - Four years
 - Five years
 - Other:

- 5.26 How often are personnel (information system administrators, users, information system/information system developers, contractors, *etc.*) who use the information system trained and made aware of their responsibilities for protecting the information?
- There is no training
 - One year:
 - Two years
 - Three years
 - Four years
 - Five years
 - Other: The FCC inaugurated a Commission-wide privacy training program, which has required that all FCC employees and contractors complete a privacy training course annually, beginning in September 2006.

If privacy training is provided, please skip to Question 5.28.

- 5.27 What are the safeguards to insure that there are few opportunities for disclosure, unavailability, modification, and/or damage to the information system covered by this system of records notice (SORN), and/or prevention of timely performance of FCC operations if operational training is not provided?

- 5.28 How often must staff be “re-certified” that they understand the risks when working with personally identifiable information (PII)?
- Less than one year:
 - One year: The OCBO staff requires that the personnel who use this information system, including FCC employees and contractors working at the FCC, must be trained at once a year about their responsibilities for protecting the PII contained in the Small Business Contacts List information system.
 - Two years
 - Three or more years
 - Other re-certification procedures:

- 5.29 Do the Commission’s training and security requirements for this information system that is covered by this system of records notice (SORN) conform to the requirements of the Federal Information Security Management Act (FISMA)?
- Yes
 - No

Please explain your response:

The Small Business Contacts List information system is a non-major information system, and as such, is not required to comply with the FISMA regulations.

If the Privacy Threshold Analysis was completed recently as part of the information system's evaluation, please skip to Question 5.34.

- 5.30 What is the potential impact on individuals on whom the information is maintained in the information system(s) if unauthorized disclosure or misuse of information occurs?
(check one)

- Results in little or no harm, embarrassment, inconvenience, or unfairness to the individual.
 Results in moderate harm, embarrassment, inconvenience, or unfairness to the individual.
 Results in significant harm, embarrassment, inconvenient, or unfairness to the individual.

Please explain your response:

The Small Business Contacts List information system collects contact personally identifiable information ("contact data") from minority, small, and women-owned business owners and employees on a voluntary basis. OCBO uses the contact data in its outreach programs and services to alert these individuals when there are activities that may interest them. The PII that these individuals provide consists solely of their "contact data" that may include their home address, home telephone number, cellular phone number, page number, and/or their e-mail address(es). The FCC believes that inadvertent disclosure of this PII would pose only minimal harm to these individuals since at least some of the information may already be publicly available, *i.e.*, home telephone numbers and home address may be in the telephone book, *etc.*

- 5.31 Is the impact level for the information system(s) covered by this system of records notice (SORN) consistent with the guidelines as determined by the FIPS 199 assessment?

- Yes
 No

Please explain your response:

The Small Business Contacts List information system is a non-major information system, and as such, is not required to comply with the guidelines for the FIPS 199 assessment.

- 5.32 Has a "Certification and Accreditation" (C&A) been completed for the information system(s) covered this system of records notice (SORN)?

- Yes
 No

If yes, please explain your response and give the C&A completion date:

The Small Business Contacts List information system is a non-major information system, and as such, is not required to comply with the Certification and Accreditation requirements..

5.33 Has the Chief Information Officer (CIO) and/or the Chief Security Officer (CSO) designated this information system as requiring one or more of the following:

- Independent risk assessment:
- Independent security test and evaluation:
- Other risk assessment and/or security testing procedures, *etc.*:
- Not applicable: The Small Business Contacts List information system is a non-major information system, and as such, is not required to have an independent risk assessment, independent security test and evaluation, or other risk assessment or security testing procedures.

5.34 Is the system using technology in ways that the Commission has not done so previously, *i.e.*, Smart Cards, Caller-ID, *etc.*?

- Yes
- No

Please explain your response:

The OCBO staff are making various changes to FCC/OCBO-1, "Small Business Contacts List" SORN, which covers the PII that is collected, used, and maintained to further OCBO's outreach programs, activities, and services. These changes do not include any new technologies or modifications to existing information technology that the Commission has not used previously.

5.35 How does the use of the technology affect the privacy of the general public and FCC employees and contractors?

The Small Business Contacts List information system uses the personally identifiable information (PII), *e.g.*, "contact data" that small, minority, and women-owned communications business owners and employees and related groups provide on a voluntary basis. The contact data are used solely to compile OCBO's outreach Contacts List and to do various statistical analyses.

OCBO uses the contact data primarily to disseminate its mailers and meeting announcements to notify these individuals of the FCC programs, activities, and service that may be of interest to them. The statistical analysis are done to provide greater understanding of the characteristics of these population cohorts that can improve OCBO's existing outreach program and activities and fashion new ones to serve these individuals and their needs.

Thus, there is very little impact on the privacy of those who provide their PII since it is done voluntarily and with the assumption that providing the information to them gives them access to these FCC programs, activities, and services.

5.36 Will the information system that is covered by this system of records notice (SORN) include a capability to identify, locate, and/or monitor individuals?

- Yes
- No

Please explain your response:

The sole purpose of the Small Business Contacts List information system is to collect, store, maintain, and use the contact data that individuals provide to OCBO to compile its contacts list, which OCBO uses to disseminate its information to minority, small, and women-owned business owners and employees and related groups.

If the information system does not include any monitoring capabilities, please skip to **Section 6.0 Information Collection Requirements under the Paperwork Reduction Act (PRA)**:

5.37 If the information system includes these technical capabilities identified in Questions 5.34 through 5.36 above, what kinds of information will be collected as a function of the monitoring of individuals?

5.38 Does the information system covered by this system of records notice (SORN) contain any controls, policies, and procedures to prevent unauthorized monitoring?

- Yes
 No

Please explain your response:

Section 6.0 Information Collection Requirements under the Paperwork Reduction Act (PRA):

6.1 Does this system of records notice (SORN) require non-FCC employees and contractors to perform any paperwork or recordkeeping activities?

- Yes, individuals, who are not FCC employees or contractors, are required to complete paperwork or recordkeeping functions or activities, *i.e.*, fill out forms and/or licenses, participate in surveys, and or maintain records *etc.*

Please explain your response:

- No, individuals, who are not FCC employees or contractors, are not required to perform any paperwork or recordkeeping functions or activities

Please explain your response:

Individuals who provide their contact information to OCBO, including the PII that is covered by FCC/OCBO-1, "Small Business Contacts List " SORN, do so voluntarily. There are no FCC forms or other paperwork or recordkeeping requirements involved.

- No, this system of records notice includes only FCC employees and/or contractors, which exempts it from the PRA. Please skip to **Section 7.0 Correction and Redress**:

6.2 If the website requests information, such as the information necessary to complete an FCC form, license, authorization, *etc.*, has the information collection covered by this system of records notice (SORN) been identified for possible inclusion under the FCC's Paperwork Reduction Act (PRA) requirements?
