RE: New and Emerging Technologies Improvement Act of 2008

Dear Rear Admiral Simpson (Ret.):

Please accept the filing from the Michigan State Police as response to the Federal Communications Commission's request in regard to the NET 911 Act.

The Michigan Emergency 911 Services Enabling Act provides for funding of 911 services in Michigan. Two funding mechanisms, a State of Michigan 911 charge and individual county 911 surcharges, are currently being collected by all communications providers serving Michigan customers on all devices. A fee for prepaid wireless customers is also collected at the retail point of sale. In addition, landline carriers collect a technical surcharge to cover their costs for providing 911 call routing to 911 dispatch centers.

If you need further information regarding the State of Michigan's 911 funding system, please do not hesitate to contact me at (517) 243-2075.

Sincerely yours,

2. Please provide the total number of active telecommunicators<sup>2</sup> in your state or jurisdiction that were funded through the collection of 911 and E911 fees during the annual period ending December 31, 2014:

The figures below represent an estimated number of active telecommunicators in Michigan as of July 22, 2015. The numbers are provided to the State 911 Office through the telecommunicator training tracking system via the entries by dispatch centers. If subsequent changes are made to the staffing numbers, the centers are responsible for contacting the State

<sup>1</sup> A Primary PSAP is one to which 911 calls are routed directly from the 911 Control office. A secondary PSAP is one to which 911 calls are transferred from a Primary PSAP. See National Emergency Number Association, Master Glossary of 9-1-1 Terminology (*Master Glossary*), July 29, 2014, at 118, 126, available at [https://c.yimcdn.com/sites/www.nena.org/resource/resmgr/Standards/NENA-ADM-000.18-2014\\_2014072.pdf](https://c.yimcdn.com/sites/www.nena.org/resource/resmgr/Standards/NENA-ADM-000.18-2014_2014072.pdf).

**J. Measuring Effective Utilization of 911/E911 Fees**

1. Please provide an assessment of the effects achieved from the expenditure of state 911/E911 or NG911 funds, including any criteria your state or jurisdiction uses to measure the effectiveness of the use of 911/E911 fees and charges. If your state conducts annual or other periodic assessments, please provide an electronic copy (e.g., Word, PDF) of the latest such report upon submission of this questionnaire to the FCC or provide links to online versions of such reports in the space below.

Each year, the State 911 Committee collects data and submits a report to the Michigan Legislature with the following minimal criteria:

- A. The extent of emergency 911 service implementation in the state.
- B. The actual 911 service costs incurred by PSAPs and counties.
- C. The state 911 charge required under MCL 484.1401a and a recommendation of any changes in the state 911 charge amount, or in the distribution percentages under MCL484.1408.
- D. A description of any commercial applications developed as a result of implementing the 911 enabling act.
- E. The charges allowed under MCL 484.1401a, 1401b, 1401c, 1401d, and 1401e, and a detailed record of expenditures by each county relating to the 911 enabling act.

That report exceeds the statutory reporting of data to provide a comprehensive status report on Michigan's 911 system. The full 2015 Report can be found at: [www.michigan.gov/snc](http://www.michigan.gov/snc)
