August 26, 2015

Rear Admiral (R) David G. Simpson
Chief, Public Safety and Homeland Security Bureau
Federal Communications Commission
Delivered via email

Rear Admiral (R) Simpson:

This letter is in response to your June 2, 2015 request to Governor Brian Sandoval regarding annual information collection as mandated by the New and Emerging Technologies Improvement Act of 2008. As you know, responses were due from states no later than July 31, 2015, however, my team worked with Mr. Timothy May on your staff to extend our reporting period to August 31, 2015. Nevada's response is enclosed with this message.

Since receipt of your data request, the Nevada Department of Public Safety's Division of Emergency Management (DEM) reached out numerous times to county and local service providers for input. Working with Mr. May in your office, DEM identified what information was crucial and what would be required following the full implementation of communications technologies in the future. Your office has seen early drafts of our data submission has informed us that our submissions are in line with what other states are able to provide.

Thank you for your support on this effort. We are look forward to providing you any additional information that you may need. In the meantime, if there is anything that my office or I can provide you, please feel free to contact me via email at cscage@dps.state.nv.us.

All best,

A handwritten signature in blue ink that reads "Caleb S. Cage".

Caleb S. Cage
