Wireless	Unknown
VoIP	Unknown
Other (all 911 call types)	319,450
Total	319,450

***Note – this information is currently not collected from the PSAPs because every PSAP has a different CPE and some of their systems do not allow them to pull call counts by service type. However in calendar year 2015 the state is deploying a statewide hosted CPE. Once the CPE is deployed in all the PSAPs the state will have access to all of the call data. This is expected to take until March of 2017. The state will have call data on at least some of the PSAPs in 2015, 2016 and 2017. Calendar year 2018 will be the first full year with all PSAPs on the hosted CPE and therefore the call counts will be available by service type.

We monitor the appropriate use of the 911 funds by the counties and PSAPs, i.e. allowable recurring and non-recurring costs, and we do this through an annual financial audit. I have provided a copy of the audit form for reference. Additionally, we audit the PSAPs for compliance with the minimum operational, technical and financial standards that are set forth in Administrative Rules by the 911 board. This is audited through an on-site visit to the PSAP to complete the review checklist. An example of this review checklist is included with this report.
