<sup>1</sup> A Primary PSAP is one to which 911 calls are routed directly from the 911 Control office. A secondary PSAP is one to which 911 calls are transferred from a Primary PSAP. See National Emergency Number Association, Master Glossary of 9-1-1 Terminology (*Master Glossary*), July 29, 2014, at 118, 126, available at [https://c.ymcdn.com/sites/www.nena.org/resource/resmgr/Standards/NENA-ADM-000.18-2014\\_2014072.pdf](https://c.ymcdn.com/sites/www.nena.org/resource/resmgr/Standards/NENA-ADM-000.18-2014_2014072.pdf).

<sup>2</sup> A telecommunicator, also known as a call taker or a dispatcher, is a person employed by a PSAP who is qualified to answer incoming emergency telephone calls and/or who provides for the appropriate emergency response either directly or through communication with the appropriate PSAP. <b>Amount</b> (\$)	\$50,055,078
-----------------------	--------------

**3a. If an amount cannot be provided, please explain why.**

Note 1: This is an estimate based on the expenses reported by each county/PSAP on the 2016 PSAP Certification (for the reporting 2015 Calendar year).

Note 2: Two primary PSAPs (Clay County & Pike County) have not submitted their 2016 PSAP Certification, so the data for these two counties was estimated based on the 2014 data that was reported on the 2015 PSAP Certification.

Note 3: Not all secondary PSAPs remitted a 2016 PSAP Certification, so the report does not include data from the secondary PSAPs that have not reported.

**4. Please provide the total number of 911 calls your state or jurisdiction received during the period January 1, 2015 to December 31, 2015.**

Type of Service	Total 911 Calls
Wireline	276,035
Wireless	2,038,786
VoIP	Unknown*
Other	Unknown
<b>Total</b>	2,314,821*

Note: Prior to 2016 (for calendar year 2015), AT&T provided call studies to the PSAPs. Because many of the PSAPs were not pulling call studies from their 911 systems regularly, they were unaware that their systems were not working. As a result some of the reported stats were estimated based on the surrounding month's data and the previous year's data for the same reporting period.

**1b. If YES, during the annual period January 1, 2015 to December 31, 2015, did your state or jurisdiction amend, enlarge, or in any way alter the funding mechanism.**

Yes. During the 2015 Legislative session, ACT919 was passed increasing the amount to be used exclusively for training and all related costs under A.C.A. § 12-10-325. The amount was increased from \$120,000 to \$200,000 thus reducing the quarterly distribution amount to the PSAPs by \$80,000.

There were no other alterations to the funding mechanism.

**2. Which of the following best describes the type of authority arrangement for the collection of 911/E911 fees? Check one.**

- The State collects the fees .....
- A Local Authority collects the fees .....
- A hybrid approach where two or more governing bodies  
(e.g., state and local authority) collect the fees .....

Federal Communications Commission  
Washington, D.C. 20554

**3. Describe how the funds collected are made available to localities.**

The 911 surcharge for wireline service is remitted to each respective county treasurer each month (or quarterly in some cases) by the service provider(s).

The 911 surcharge for wireless post-paid service, VoIP, and non-traditional service is remitted to the Arkansas Emergency Telephone Services Board monthly.

The 911 surcharge for prepaid service is collected at the point of sale and remitted to the AR Dept. of Finance and Administration monthly with the Sales & Use Tax. The AR DF&A then remits the prepaid surcharge collected to the AR Emergency Telephone Services Board monthly.

Each quarter, 83.5% of the surcharge remitted to the AR ETS Board is distributed to the primary PSAPs.
