Commissioners:

I am sick and tired of reading all these ridiculous messages protesting censorship on the web.
What we need is more censorship!

The web is filled with disgusting dirty pictures. Would you want YOUR children to look at them?

And the child pornography. It's EVERYWHERE! But that's not the worst of it! we have people
spouting about all SORTS of strange stuff. Like in politics. Now I encourage the Republicans
and even the democrats to post their views. Even Ralph Nader, although I would really prefer
that he went away and left us alone. But then we have the socialists, and the libertarians,
and even the communists. How would YOU like to read Castro's posts in your OWN living room?

And the people that use nasty words. they should be stopped. You need to get a list of all
the words that can't be used on the net. Maybe make it a crime, no jail, a stiff fine will do.

Also, when we attacked Kosivo, I read MANY posts attacking the government. That won't do at
all. We can't have these disloyal people running around and giving comfort to the enemy. I
think you will agree that if that is not outright treason, it is the next thing to it. They
are probably flag-burners anyway. What would our boys at the front think? We need to give them
all the support we can.

While you are at it, many websites I have found are not even in English. I think there is a law
against that already, isn't there? If not, you can make one. How do we even know if they are
talking about banned subjects if we can't even read what they are saying?

Please give this some thought. I'm sure that all REAL Americans will greatly appreciate it if you
make the internet a better place for all of us. Freedom is a wonderful thing, but we can't let it
get out of hand.

Wilson Breedlove
