

Ladies & Gentlemen of the FCC Commission:

I urge you to protect the public by not allowing Time-Warner/AOL merger to usurp the freedom of the Internet for their own corporate ends.

This merger bodes ill for the public not only here in our Country but elsewhere throughout the free world. You, as guardians of the public airwaves must put the interests of the public first as mandated by law.

I would respectfully suggest that if you do allow this merger to take place that you place conditions such that there are no limitations on the freedom of the American public.

respectfully

Clifford Q. Brodie
