Washington, D.C. 20554

Re: ***CS Docket No. 00-30; In the Matter of Applications of America Online, Inc. and Time Warner, Inc. for Transfers of Control***

Notice of Ex Parte Communication

Dear Ms. Salas:

This letter provides notice that on July 25, 2000, Johnny Scarborough, Jr., Vice President, Advanced Technologies at iCast, Marc Berejka of Microsoft and the undersigned met with Helgi Walker, Senior Legal Advisor to Commissioner Furchtgott-Roth, to discuss recent developments on instant messaging, including the formation of a coalition to adopt a standard for IM interoperability and the importance of interoperability to the future of IM and in the context of the above-captioned proceeding; and Messrs. Scarborough, Berejka, Waldron and Jack Krumholtz of Microsoft met with Commissioner Powell and Kyle Dixon and Jennifer Duberstein with his office to discuss the same; and Messrs. Berejka and Waldron met with William Friedman, Legal Advisor to Commissioner Tristani to discuss the same; and on July 26, Messrs. Berejka, Krumholtz and Waldron met with Commissioner Ness and David Goodfriend with her office to discuss the same and separately with Dr. Robert Pepper of OPP; and Messrs. Berejka and Waldron met with Karen Onyeije, Legal Advisor to Chairman Kennard, to discuss the same. Attached are the materials that were distributed and discussed at the meeting.

One document which was discussed in the meetings contains a July 29, 1999, letter from Barry Schuler, President, America Online Interactive Services, to the co-chair of the IETF Instant Messaging Working Group indicating that "America Online is fast-tracking our efforts to work together to achieve the right technical and consumer standards for instant messaging." The second document, also dated July 29, 1999, contains a posting from the IETF co-chair to the Working Group indicating that Mr. Schuler had called him to say "that AOL technical staff will be participating actively in [the Working Group] discussions." What follows is a 105-page,

No. of Copies rec'd 0
List A B C D E

single-spaced log of all the correspondence (by email) among members of the Working Group over the past year. A search of this document for anyone from "AOL" finds zero entries.

Please direct any questions to the undersigned.

Sincerely,

Gerard J. Waldron

July 29, 1999

Vijay Saraswat
Co-Chairman, IETF Instant Messaging Working Group
Shannon Labs
180 Park Avenue
Slorham Park, NJ 07932

Dear Vijay,

I want to thank you for taking the time to discuss our instant messaging initiatives with me today.

As we discussed, America Online is fast-tracking our efforts to work together to achieve the right technical and consumer standards for instant messaging.

Key to that commitment is active support for the work of the IETF Instant Messaging Working Group. In addition, we are organizing an advisory group of industry leaders that so far includes Apple's Steve Jobs, RealNetworks' Rob Glaser, ICQ's Yossi Vardi, and AOL's Marc Andreessen. (We will be adding other members to the group shortly and, as we do, we'll update you.) And, lastly, we will continue to work with any other industry group or company that has its own ideas on how to make all instant messaging systems inter-operable.

We would like you to participate with the advisory group to provide the technical perspective as represented by IETF.

Again, it was a pleasure to talk to you, and we look forward to continuing to work closely with you.

Sincerely,

Barry Schuler
President, America Online Interactive Services

Creative Center I • 22070 Broderick Drive • Dulles, VA 20166-9323

Hi guys ---

Barry Schuler, President AOL Interactive Services called us earlier today to tell us that AOL technical staff will be participating actively in IMPP discussions. According to Barry they have been observing the group for a while.

Both Dave and I heartily welcome that decision and look forward to their participation.

Best,
Vijay
