

Gentlemen:

I am very much opposed to this merger because it will mean the end of the Internet useage for those of us who do not want to, and will not purchase Time-Warner/AOL services. It is Freedom of Speech and Restriction of Commerce issues under the U S Constitution as I read it, and if this abomination of a merger is approved, every person who is in opposition will suffer in some way. That is a given, and I did not go to Vietnam and get torn up for these corporations to have the legal right to violate everything that I fought for. In addition, I see nothing put pure greed for big bucks involved here and anyone who could support this kind of action by these companies ought to be ashamed and ask forgiveness from the Creator. Please, Gentlemen, Vote for Freedom and Unrestricted Commerce for THE PEOPLE,

Not for Greed and Giant Mega-mergers of the large corporations that will take away our rights under the Constitution of Free Speech, as well as killing the Internet, which works pretty well as it is. I Thank You for allowing me to make my comments, which is more then will be allowed if this merger is approved.

Respectfully Yours,
Howard F Knight, Jr
