Subject: Reject AOL-Time Warner Merger

Date: 06/04/2000

Dear Ms. Tristani:

I urge you to reject the proposed merger of AOL and Time Warner.

The world's media corporations are already among the most powerful and influential businesses that ever existed. Allowing one giant corporation to couple Internet content delivery with Internet access is a potential threat to our freedom.

Over half of all Internet users in the United States subscribe to AOL. Time Warner, already the world's largest media corporation, provides cable service to one-fifth of all cable users. Time Warner's plan to buy controlling interests in EMI will bring over half of all the world's record labels under their control.

This is too much power and influence to be controlled by one corporation. The merger threatens to turn the Internet, which was created at public expense, into a privately controlled commercial enterprise.

The mass media and major news outlets are under the control of a handful of powerful corporate giants. The public is woefully uninformed about the threat posed by their growing influence.

As our agents you are expected to preserve competition, promote diversity and assure the public's unfettered access to free and open communication.

Please don't allow AOL to purchase Time Warner.

Sincerely,

Linda C. Bolton

The world's media corporations are already among the most powerful and influential businesses that ever existed. Allowing one giant corporation to couple Internet content delivery with Internet access is a potential threat to our freedom.

Over half of all Internet users in the United States subscribe to AOL. Time Warner, already the worlds largest media corporation, provides cable service to one-fifth of all cable users. Time Warner's plan to buy controlling interests in EMI will bring over half of all the world's record labels under their control.

This is too much power and influence to be controlled by one corporation. The merger threatens to turn the Internet, which was created at public expense, into a privately controlled commercial enterprise.

The mass media and major news outlets are under the control of a handful of powerful corporate giants. The public is woefully uninformed about the threat posed by their growing influence.

As our agents you are expected to preserve competition, promote diversity and assure the public's unfettered access to free and open communication.

Please don't allow AOL to purchase Time Warner.

Sincerely,

Paul Kirsch

Over half of all Internet users in the United States subscribe to AOL. Time Warner, already the worlds largest media corporation, provides cable service to one-fifth of all cable users. Time Warner's plan to buy controlling interests in EMI will bring over half of all the world's record labels under their control.

This is too much power and influence to be controlled by one corporation. The merger threatens to turn the Internet, which was created at public expense, into a privately controlled commercial enterprise.

The mass media and major news outlets are under the control of a handful of powerful corporate giants. The public is woefully uninformed about the threat posed by their growing influence.

As our agents you are expected to preserve competition, promote diversity and assure the public's unfettered access to free and open communication.

Please don't allow AOL to purchase Time Warner.

Sincerely,

Eric Straatsma

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

From: Debra Stoleroff <debra@together.net>
To: Commissioner Gloria Tristani <gtristan@fcc.gov>
Date: Tue, Jun 6, 2000 9:26 PM
Subject: Reject AOL-Time Warner Merger

Date: 06/06/2000

Dear Ms. Tristani:

I urge you to reject the proposed merger of AOL and Time Warner.

The world's media corporations are already among the most powerful and influential businesses that ever existed. Allowing one giant corporation to couple Internet content delivery with Internet access is a potential threat to our freedom.

Over half of all Internet users in the United States subscribe to AOL. Time Warner, already the worlds largest media corporation, provides cable service to one-fifth of all cable users. Time Warner's plan to buy controlling interests in EMI will bring over half of all the world's record labels under their control.

This is too much power and influence to be controlled by one corporation. The merger threatens to turn the Internet, which was created at public expense, into a privately controlled commercial enterprise.

The mass media and major news outlets are under the control of a handful of powerful corporate giants. The public is woefully uninformed about the threat posed by their growing influence.

As our agents you are expected to preserve competition, promote diversity and assure the public's unfettered access to free and open communication.

Please don't allow AOL to purchase Time Warner.
