

I am not a citizen of the United States. I live in Australia. I have been told that America is the home of freedom. I have also heard that freedom of speech is an ammendment in the American constitution.

I personally wouldnt tolerate the censorship which Road Runner applies to its customers, and is apparently permitted by your government.

You should not permit this to continue, I feel sorry for the victims of Road Runner's dictatorship attitude toward censorship in American business

Australian citizens appreciate the value of freedom of speech.
Americans should too.
