

Based on my recent findings regarding Time Warner's and AOL's policies in limiting freedom of speech online. I ask the FCC to withhold approval of the Time Warner and AOL merger.

The combined company will certainly become a monopoly in many markets in the US and perhaps around the world. The merger is not in the best interest of consumers especially in America. The two companies have separately exhibited predatory practices in the marketplace. The combined company will no doubt exhibit even more arrogant dominating behaviors.

Please say "no" to this merger.
