

I believe that the merger of time warner IS NOT IN THE BEST INTERESTS OF THE PEOPLE WHO USE THEIR SEPERATE SERVICES!

This merger is all about money, they could care less how many requirements you impose on them , they will find a way to weasel out of them later down the road.

I am under the opion that the goverment felt it neccessary to "screw over microsoft" but is going to allow the biggest merger of all time between a media giant and a internet giant??????

{its understood that its ok for the government to screw the people were used to it, but its not ok for a company like microsoft to screw the government}

who the heck do you think your going to screw over this time?  
If you had even the slightest idea that microsft "screwed and lied their way to the top",  
how is it ok for the two giants in their respective industrys to become one company?

well i have said my peace

!!!!!!DO NOT ALLOW ANY MERGER BETWEEN THE AOL AND TIME WARNER COMPANYS!!!!!!
