

Please approve the merger of echostar & direct TV, I think personally this merger will provide satellite with more channels and options instead of being hassled with my local cable provider which happens to be TimeWarner. Time Warner happens to monopolize the industry here along with its ties to AOL and so on. Please take time and support the merger. As a remainder i do want to state that I do take the time to vote and im sure you will make the right decision as an elected official. Thank you very much for your time.

sincerely,  
Jesus Alvarenga
