

Please take into serious consideration the merger of Dish and Direct TV. I find it to be unfair that some people are allowed access to local programming on their dish, while others are not. I pastor a church in Udall, Kansas, but I was born in New York. I would like to receive channels from New York so I can keep up with news in New York State. Also, I would be able to watch the NY teams play on TV. I have a man in my church who has family in Colorado, and enjoys the news from Colorado and would like to receive channels from Colorado. I know that local networks are against me receiving ABC, CBS, NBC, and FOX out of market. They want me to watch local advertising. I want to see that law changed. Please act quickly on this matter.

A faster, better internet system is also appealing to me. I live in a rural area that is controlled by one internet service. I would like an option to choose between two services.

Thank you
