

I am writing you this letter in behalf of the company I work for. I give complete support in the merger of the in the merger of Echostar and Directv. I beleive this will benefit all satilite useres greatly as it will offer more programing freedom.

It is unfair to not allow the two companies to merge together for several reasons. To offer more local channels to those who cannot recieve due to restrictions on there area and espicilly those who live to far from cable providers who rely on the local channels for there local news and information.

Cable companie have been around for years until recently we have no other choice in cable companies until the invention of the satilite cable providers that we now can choice from. I understand politics and money are the two hated enemies of man and determines many decisions that really do not benifit anyone but the power companies with money. It forces many people to suffer because the politics rely on greed and whats right to make them look good then what our people really want. I believe this merger will make everyone happy and gain many supporters. Did you relaize with the merger you could have 6 million supporters possibly since thats how many alone dish network has?!
