

I want to voice my support for the proposed merger of Echostar and Direct Tv. I believe the merger will enhance my choice as a television viewer in rural Eastern Washington State. At this time, as a subscriber of Dishnetwork, I do not have a local feed of the Spokane Networks. I believe I should not have to purchase cable tv to receive these stations when I am already a satellite subscriber. Please support this legislation as it will provide more competition rather than less.

Sincerely,

Glen Curtis
