

To my elected representative,

I am writing this to strongly support the merger between Dish Network and Direct TV.

I have been a happy subscriber to Dish Network for 3 years. Satellite TV has saved me and countless others from the spiriling costs and dismal customer service of the local cable TV. If you support this merger, the only ones that can't compete will be cable companies with high prices and poor service. This merger will bring better TV and broadband service to more people at lower prices. A vote against this merger is a vote for non-competition, poor service, and higher prices.
