

I am writing this letter in support of proposed EchoStar - Direct TV Merger. I am a former Time Warner Cable subscriber who grew tired of thier constant rate increases. I switched to DishNetwork and have been an extremly satisfied customer for the last four years. During that time my rate has increased once by a \$1.00 per month!!! In the mean time DishNetwork has done nothing but increase both the programming and the quality of service I recieve!! I have no reason to doubt that Mr. Ergen will fulfill his promises of local television station delivery to all markets and increased broadband service for internet customers at a very competitive rate. His commitment to providing his customers with the highest quality product available and his past track record support his intitatives. Please help this merger gain the approval necessary for regulatory approval.

Thank you in advance for your time!!

Sincerly,
Joseph F. Gorzka Jr.
