

Please approve the Dish/Direct TV merger!

Please support and allow the merger of dish network and direct TV. This is the only TV i get. I want more programing that the merger would give me. This merger would also give me better Internet access. I am currently at the mercy of rural telephone lines for internet access.. VERY SLOW. With the merger much faster internet will be available to people who live in the country.

Why should we have slow internet when the merger would provide comparable service to the people that live in the Citys.

Prices have been very stable with Dish compared to people that live in town and have cable. My Mother and several friends live in town and have cable. They are constantly increasing pricing for cable. My Sat service is much cheaper than theirs.

I dont believe prices would go up do to the merger. They would be able to keep them lower because of it. Dishes competetor is Cable NOT each other.

If you are truly interested in keeping TV programing prices down for the consumer why are you letting Cable increase their prices at will.

Why do you think so many people in town are putting up sat dishes..

Greedy Cable Companys are charging excessive prices! Do what is right!

Allow this merger and give in rural america good Sat Dish service. TV and Internet.

Please make information available on how you support this issue.

Come election time my support will only goto Dish supporters!
