

The Honorable Michael K. Powell
Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Dear Chairman Powell:

I will support the merger only if two conditions are met.

1) access to Broadband will be universal. That it will include Macintosh and Unix users. At present direct way is limited to Windows users due to the use of USB ports and no drivers or software for Macintosh OS 9 and 10. As well as Unix users.

2) More HD channels should be planned and guaranteed. I believe that with new technology available 100 or more HD channels could be created.

Thanks,

P Joy

Sincerely,

Patrick Joy
