

Please support the proposed merger between DirectTV and Dish Network.

I subscribed to Dish less than a year ago. At the time, I was surprised at how little difference there was between the two services. What didn't surprise me is that the channels offered by satellite were so much better than those offered to me by my de-facto-monopoly cable system.

Merging the two major satellite providers will help put them on a more even footing with the rapidly merging cable systems.

Please do what you can to make sure this merger goes through. Thank you.
