

I am writing to you today as a current satellite TV subscriber who would like to see pending merger of EchoStar and DIRECTV.

I feel that having a choice in programming is a good thing. Echostar may say that will be able to provide better service with the new band width, I feel it will not be good for me as a consumer. Prices will go up because of no competition.. it happens all the time when one business has control of a market

do not support the buy out of directv

Sincerely

Jeff Mihelich
