

I agree with the Merger between The Dish Network and Hughes/Direct TV. It is about time that free-enterprise has its way in the market place and be able to compete with all the cable providers.

As a new subscriber of the Dish Network, I can't believe the difference in quality and service from that of AT&T Broadband Cable.

AT&T neither provided Broadband quality or the promised broadband internet service in my area.

Here's my advice, 'Politicians stay out of trying to control every facet of business in America. Give the consumer the benefit of an improved product as a result of stiff competition with the cable industry and support this merger!'
