

I think allowng the satellite companies to merge is good idea. Cable television has gotten out of control and they need some competition. Cablevision of Long Island Is WAY out control.. Mr Dolan is holding Yankee Fans at his mercy. He wants to charge for Yankees games where we can get them from the direct tv people and hopefully from he dish network company. I gave up cable tv many years ago because of Mr Dolans charges for stations that shouldnt have to be charged for. I think you should allow this merger an let people decide what service they want, weather it be cable tv or satellite tv.
