

I am writing to you today as a current satellite TV subscriber who would like to add my voice of support to the pending merger of EchoStar and DIRECTV. I am 100% behind this merger. Will there be problem's? Yes, I can bet that there will be problem's with this merger, changing dish's and/or box's. It will no doubt cause problems for some. In the end I think that the merger will be the best for everyone. You'll get the best of both EchoStar and DIRECTV, there I don't see how this could go wrong. Along with 100% of the United States being able to receive broadband Internet access. Again, this will be best for everyone in the end.

Also, if this merger goes go thru I will be able to receive my local channels, right now I can not. And I don't know when (or if) I will ever be able to receive my local channels with DIRECTV. I urge you to support this merger. Thank you for your time.
