

The Honorable Michael K. Powell
Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Dear Chairman Powell:

As many fellow Mississippians do, I live in a highly wooded area and can not, in most cases, receive any local channels via any form of antenna. Since I live outside of the City limits, the local cable company does not serve my area which forces me to use a satellite provider in order to watch anything - including CNN and other important news and weather channels. I would greatly appreciate your support in helping the satellite provider gain access to whatever it is that they need to have so that I may watch local channels that could, among other things, alert me of dangerous weather conditions.

Sincerely,

Rosalyn Cox
