

I am for the Merger between Echostar & Direct TV !!!As for we can not get our local news and have to Pay for NYC News And Weather.Which sucks big time in stead of being able to watch Rochester NY news. We live in the country so we can not get cable which sucks any ways.And if you can get local news on cable then we should have the right to get it on Dishnet Work also.We have the same rights as the cable people that are crooks on there price on cable.
