Senator Reid,
Sir, I am worried about the purchase of Hughes electronics by Echostar. Living in Rual Nevada my family decided to purchase Directv and Direcpc satellite systems from Hughes a division of GM. My concern is Echostar having a monopoly on Sattelite communications. We have no cable or internet access without sattilite communications. There have been to many of these large takeovers or sales of large companys to keep giving Americans freedom of choice. My family has made over \$800.00 in equipment purchases and over \$100.00 a month in subscriptions. I understand how busy you are right now, but if you could please pass our concern on to the correct Senate committe my family and I would be thankful. Thanks for your time
Brad Snedeker
