

Living in rural Oklahoma for about a year , I must let you know that I feel very strongly about the satelite merger and the possibility of recieving the OKC TV markets. I must state that I miss the newscasts and special programming that these stations broadcasts including local(state interest) sports and most important to Okies-weather information, especially in the spring and early summer. The tornado season is of everyones concern when severe storms develop and the OKC TV stations cover the states weather extremely well. I hope you approve of this merger.
