EXHIBIT A
DESCRIPTION OF THE PROPOSED TRANSACTION

The non-common carrier license assignments proposed in this application entail the transfer from Orbital Communications Corporation ("OCC" or "Assignor") to ORBCOMM License Corp. ("OLC" or "Assignee") of the NVNG MSS blanket mobile earth station license and four (4) gateway earth station licenses issued to Assignor under FCC Call Signs E940534, and E940535, E940536, E940537 & E940538, respectively. The subject licenses relate to the United States ground segment operations of the ORBCOMM NVNG MSS system (ITU designation LEOTELCOM-1) (the "ORBCOMM system").[1] The proposed assignment transaction is an integral component of the comprehensive arrangements relating to the resolution of the Chapter 11 bankruptcy of ORBCOMM Global, L.P. and affiliated companies (collectively referred to herein as "ORBCOMM Global"), as approved by the United States Bankruptcy Court for the District of Delaware. Under these Court-approved arrangements, all of the assets relating to the ORBCOMM system that were formerly owned by ORBCOMM Global have been transferred to OLC's parent company, ORBCOMM LLC.[2]

Subject to the approval requested in the instant application and the other concurrently-filed assignment applications, OLC hereby seeks authority to consummate the assignment of the FCC authorizations relating to the ORBCOMM system. OLC is a Delaware corporation, established as a wholly-owned subsidiary of ORBCOMM LLC, for the purpose of consolidating the ownership and control of the various FCC authorizations issued in connection with the construction, launch and operation of the ORBCOMM system, and the ORBCOMM system's United States ground segment, in accordance with the ORBCOMM Global bankruptcy resolution agreements. If any further information concerning the proposed transaction is required by the Commission, Assignee will be pleased to provide it upon request.

---

[1] By three other concurrently filed assignment applications, Commission approval is also being sought for the assignment of OCC's licenses relating to the ORBCOMM space segment, certain other portions of the ground segment operations in the United States licensed under ORBCOMM Global, and ongoing experimental development activities relating to the ORBCOMM system.

[2] By the terms of the Court-approved plan of bankruptcy reorganization, ORBCOMM LLC also assumed certain contractual rights and obligations of ORBCOMM Global, including an agreement with OCC that facilitates the management and operation of the ORBCOMM system assets authorized under OCC's FCC licenses. A similar agreement was entered into under the terms of the bankruptcy resolution between ORBCOMM LLC and ORBCOMM Global concerning the management and operation of the five C-Band earth stations licensed to ORBCOMM Global, and used to support the United States gateway operations of the ORBCOMM system. These agreements will terminate upon the Commission-approved consummation of the proposed assignments.

EXHIBIT C
PUBLIC INTEREST STATEMENT

By the instant application, Orbital Communications Corporation ("OCC" or "Assignor") proposes to assign to ORBCOMM License Corp. ("OLC" or "Assignee") the NVNG MSS blanket mobile earth station license and four (4) gateway earth station licenses issued to Assignor under FCC Call Signs E940534, and E940535, E940536, E940537 & E940538, respectively. The subject licenses relate to the United States ground segment operations of the ORBCOMM NVNG MSS system (the "ORBCOMM system"). The proposed license assignments arise in connection with the resolution of the Chapter 11 bankruptcy of ORBCOMM Global, L.P. and affiliated companies (collectively referred to herein as "ORBCOMM Global" or "Debtor"), the terms and conditions of which were approved on April 23, 2001, by the United States Bankruptcy Court for the District of Delaware.[1] As discussed more fully below, the public interest will be well served by timely Commission approval of the proposed assignments.

Under the Court-approved resolution of the ORBCOMM Global bankruptcy, Assignee's parent company, ORBCOMM LLC, has acquired all of the assets of the ORBCOMM system formerly owned by ORBCOMM Global. By this application, and three other concurrently filed applications, OLC now seeks Commission approval to take assignment of the FCC licenses relating to the ORBCOMM system, including its United States ground segment operations, and certain ongoing experimental technology development activities. The proposed license assignments are integral to the successful resolution of the ORBCOMM Global bankruptcy reorganization, and the Commission generally seeks to accommodate the policies of the federal bankruptcy law with those of the Communications Act.[2] Most importantly, timely Commission approval of the proposed license assignments is essential to the viability of the ongoing worldwide operation of the ORBCOMMM system, the continuing provision of ORBCOMM NVNG services in the United States, and the numerous benefits to the public that derive therefrom.

A successful emergence from bankruptcy is obviously critical to the continued operation and expansion of the ORBCOMM system, and the continuing availability of all of the associated

[1] The ORBCOMM Global Chapter 11 bankruptcy filing was effected on Friday, September 15, 2000, in the United States Bankruptcy Court for the District of Delaware, Case Nos. 00-3636 through 00-3643. The transfer of the Debtors' assets to ORBCOMM LLC was approved by the Court on April 23, 2001. The consummation of the transfer of material assets occurred the following day, on April 24, 2001.

public benefits. The Commission has already determined that Little LEO satellite services provided by the ORBCOMM system well serve the public interest by making available efficient communications capabilities to unserved and underserved markets.[3] In addition, the success of the ORBCOMM reorganization will serve to minimize any losses arising from the bankruptcy suffered by the customers of the ORBCOMM system, and the creditors of ORBCOMM Global, thus advancing principal goals of the bankruptcy law and the Communications Act.

For all of these reasons, the assignment proposed in the instant application will well serve the public interest, convenience, and necessity. Accordingly, OCC and OLC respectfully request an expeditious grant of this assignment application.
