Notes:

(1) With regard to BRS availability, Applicants have relied upon notifications filed in WT Docket No. 06-136 and Universal Licensing System (“ULS”) records regarding the status of particular markets. For AWS availability, Applicants have used Excel data provided by NTIA, dated December 5, 2011, showing the status of Federal systems in the 1710-1755 MHz band (see <http://www.ntia.doc.gov/category/aws-1710-1755-mhz-transition>). Applicants mapped the data and determined the links defined by the point-to-point systems. AWS spectrum has been shown as unavailable in any county where there is an unrelocated Federal facility or where a link between two Federal endpoints crosses through the county.

(2) Where AWS-1 spectrum is not considered to be “available” in a particular market, Applicants have excluded their current and proposed AWS-1 holdings from its pre- and post-transaction totals.

(3) Applicants have classified BRS spectrum as “available” in the Charleston, SC BTA (BTA072) on the basis that Clearwire has deployed and is operating a 4G mobile broadband network in the Charleston market, and its licenses are operating on the new channel plan. See Call Signs WHT799, WLK351, WMX206, WMX207. See also ULS File Nos. 0004662046; 0004662188; 0004662047; 0004674784.

(4) In certain counties, T-Mobile’s pre- and post-transaction spectrum totals also include spectrum in its pending Leap and C-Spire transactions.

Notes:

(1) With regard to BRS availability, Applicants have relied upon notifications filed in WT Docket No. 06-136 and Universal Licensing System (“ULS”) records regarding the status of particular markets. For AWS availability, Applicants have used Excel data provided by NTIA, dated December 5, 2011, showing the status of Federal systems in the 1710-1755 MHz band (see <http://www.ntia.doc.gov/category/aws-1710-1755-mhz-transition>). Applicants mapped the data and determined the links defined by the point-to-point systems. AWS spectrum has been shown as unavailable in any county where there is an unrelocated Federal facility or where a link between two Federal endpoints crosses through the county.

(2) Where AWS-1 spectrum is not considered to be “available” in a particular market, Applicants have excluded their current and proposed AWS-1 holdings from its pre- and post-transaction totals.

(3) Applicants have classified BRS spectrum as “available” in the Charleston, SC BTA (BTA072) on the basis that Clearwire has deployed and is operating a 4G mobile broadband network in the Charleston market, and its licenses are operating on the new channel plan. See Call Signs WHT799, WLK351, WMX206, WMX207. See also ULS File Nos. 0004662046; 0004662188; 0004662047; 0004674784.

(4) In certain counties, Verizon Wireless' pre- and post-transaction spectrum totals also include spectrum for which Verizon Wireless has a pending or consented to assignment or transfer application at the FCC. See ULS File Nos. 0004952444, 0004949598, 0004949596, 0004942973, and 0004942992.
