

RE: XO Communications, Docket # 02-50

Dear

I am opposed to the proposed restructuring of XO Communications which is discriminatory and unfair to XO's common shareholders.

Furthermore, the conduct of XO Communications executive management and Board of Directors has been abysmal with misleading information and possible fraud.

Please take a quick read of this excellent article by John Balzar titled "MIA: A War on Greed"

I urge the commission to take a stand for common shareholder rights by NOT approving the XO Communications petition for restructuring

Sincerely
