

I am a Citizens who beleives in the American system and way of life.
If we are to allow XO's management and executives to give
our life savings to foreign investors at fractions,
then why should we support our government and its officials.
Billionaires have funds, commonholders (Americans)are
who gave this company and the US Market life, should be protected.
It is your duty to protect us as it is our duty
as Americans to protect our government.
